Profile

Carlos Andrés is a UX/UI Designer and Accessibility expert working across Financial, Health, Insurance, Retail, Biotechnology, Education, and IT industries, where he crafts inclusive, user-centric, and enterprise-grade digital products. His core strength lies in being a comprehensive problem-solver who leverages solid end-to-end knowledge, from user research, usability tests, and collaborative workshops to technical front-end understanding. An adaptable and flexible communicator, Carlos Andrés thrives in Agile environments by bridging the gap between UX and Engineering, scaling robust design systems, and ensuring rigorous WCAG compliance across digital ecosystems.

Work

Globant - 08.2021 - Currently
UX/UI Designer

At Globant, I led high-impact transformations for global leaders like Intertek, Sodimac, Johnson Controls and McKinsey. I specialized in architecting scalable, WCAG-compliant design systems, managing complex migrations, and facilitating international workshops. By bridging the gap between engineering and UX, I delivered inclusive, high-conversion enterprise solutions across diverse industries.
